

## Foxit PhantomPDF™ Business

### The PDF Solution Alternative That Businesses Are Looking For

Many businesses need more than just PDF creation and editing. They need security that ensures regulatory compliance and corporate governance of their important documents and archives. They also need to ensure certified documents don't change after they are approved. It is essential to have a robust PDF solution that stands up to the demands of large enterprises but is lightweight enough to easily deploy to thousands of users without exhausting resources. Foxit PhantomPDF Business delivers Business Ready PDF by providing the right features at the right price with the quality and support you expect from an enterprise solution.

### Business Ready PDF – Robust and Secure

Foxit PhantomPDF Business builds upon the capabilities of PhantomPDF Standard and PhantomPDF Express. It enables quick and easy creation of professional looking PDF documents, highlighting and annotation capabilities, advanced editing capabilities, and high end security to safeguard sensitive information. Highlighted features of PhantomPDF Business include:

XFA Form Filling - XFA (XML Form Architecture) form allows you to leverage existing XFA forms.

High Performance - Up to 3 times faster PDF creation from over 200 of the most common office file types and convert multiple files to PDF in a single operation.

One Click PDF Creation - Creates PDF document with a single mouse click from Microsoft® Office® applications like Word, PowerPoint®, and Excel®.

Advanced PDF Editor – Allows you to modify any page contents in any PDF documents, select, insert, change, remove, rotate, copy and paste text, images, graphics and shadings.

Convert PDF to DOC, text, and image formats - easily shares content with other applications like Microsoft® Word®.

Robust Document Security - Using password protection, certificate encryption, and digital signature tools.

Redaction - Lets you permanently remove (redact) visible text and images from PDF documents.

Document Certification - Indicates you approve of its content and allows you to specify the types of changes that are permitted for the PDF to remain certified.

Microsoft® Active Directory® RMS Protector and Policy Manager - Extends the usage control benefits of Microsoft® Active Directory Rights Management Service to all your PDF documents and allows the author the control of document features within each PDF.

Form Design - Easy to use electronic forms design tools to make your office forms work harder. Enables you to create or convert static PDF files into professional looking forms. Form data import tools allow data to be automatically imported into a form reducing manual key entering and input errors.

Form Action Creation - Tools allow you to custom JavaScript actions to gain increased customization options, you can connect to a database for the purpose of inserting new data, updating information, and deleting database entries.

Optical Character Recognition - OCR support to convert scanned or image-based content into selectable and searchable text.

Create industry-standard compliant PDFs from any printable file, PDF/A supported - Since Foxit

products are ISO 32000-1 / PDF 1.7 standard compliant, they are compatible with other PDF products like those from Adobe®.

PDF Optimizer - Optimizes PDF document to reduce the file size.

High Compression of scanned documents.

Email and Phone Support - helps when you need it.

Watermark can indicate the status of created PDF files, such as Draft or Confidential.

Background makes your PDF documents rich and professional.

#### Edit and modify PDF contents

Quickly edits document content and corrects mistakes right in a PDF file.

Adds text to your PDF document as necessary.

#### Review PDF documents

Adds your comments or suggestions including notes.

Highlights, underlines, or uses one of many other tools to indicate selected text.

Indicates the status of PDF document or hint the reviewer where to sign with Stamp.

Easily corrects mistakes by cancelling the last actions and quickly add back in changes made with Redo & Undo features.

#### Compare PDF documents

Highlights the differences between two PDF documents to help you identify what has been changed quickly and easily.

#### Organize PDF pages

Re-organizes PDF pages without using or reverting to the documents native application.

Adds, deletes, or combines pages from multiple PDF files to create new PDF documents.

Easy to change PDF page order by simply dragging and dropping page thumbnails.

Streamlines your workflow by inserting scanned documents directly into your PDF document.

#### Design and fill-out electronic forms

Converts your current forms into electronic PDF forms.

Easy to use form design tools make your PDF documents more interactive.

Creates and manages digital signature fields, to help PDF's author add blank signature fields for reviewers to sign.

Collects the data your company needs from customers, partners and employees easily without the cost of re-keying.

Reduces paper handling.

Extends document-based processes to better engage with customers, partners, constituents, colleagues, etc.

Protect PDF documents with passwords and certificates

Controls access to PDF documents.

Protects sensitive PDF documents to prevent loss of valuable company assets.

Enhances security when sending and receiving PDF files.

Control PDF document usage such as printing, changing, content extraction

Manages PDF usage permissions for individual documents within or without your organization current IT structure.

Add digital signatures to PDF documents

Allows the PDF document receiver to validate the status of digital signature to determine if the document has been modified since the signature was applied.

Enhances security by instituting identity authentication.

Automatically checks for unauthorized content changes.

Set document information

Helps to categorize, archive, index and search your huge PDF files with ease.

Optional database connectivity to Windows ODBC

Developers gain increased customization options and data accuracy via JavaScript access to information databases.

Developers can create document level-scripts to connect to a database for the purposes of inserting new data, updating information, and deleting database entries.

## Foxit PhantomPDF™ Standard

### Fast and Secure Professional PDF Solution at a Great Value

You're trying to go paperless, design company forms, collaborating with others to design documents, or involved in other projects that require PDF technology. Your documents contain sensitive information, so you need them to be secure. However, the products you find either don't have enough features or are way too expensive. Foxit PhantomPDF Standard enables businesses to create, edit, and secure reliable PDF documents quickly, easily, and at a cost you can afford.

### The Features You Need, A Price You Can Afford

## Foxit PDF IFilter

The Fastest Way to Unlock Hidden Knowledge residing in your PDF documents

3 Times Faster Enterprise PDF Search

Desktop PDF Search for Free

Top Choice of Technology Providers Around the Globe

It is estimated that 20% of documents residing inside organizations today are in PDF format. Having quick and reliable access to the information locked inside static PDF file is critical to agile and responsive business practice. Foxit PDF IFilter is designed to help users to index a large amount of PDF documents and then quickly find text within these documents.

Built on Microsoft's IFilter indexing interface, Foxit PDF IFilter extracts the contents, properties and bookmarks from PDF documents, and returns the index results to search engine software on Microsoft Windows. Foxit PDF IFilter allows any size collection of PDF documents to be rapidly searched on the desktop, a corporate server, or via the Web via keywords. These PDF documents can be files, email attachments or database records.

3 Times Faster Enterprise PDF Search

NEW! Unique Multi-Core support delivers fastest search available

Unlike other IFilter products, Foxit PDF IFilter has been engineered to take full advantage of today's multi-core server architectures, making it the absolutely fastest IFilter available. Over 3 Times faster than other products.

Foxit PDF IFilter goes beyond Adobe Acrobat, and indexes PDF bookmarks and PDF attachments; as well as page contents, titles, authors, subjects and keywords.

Foxit PDF IFilter is thread safe, and available in both 32 bit and 64 bit. It supports multiple languages, even non-roman scripts, with ease.

Foxit PDF IFilter supports indexing of ISO 32000 PDF, and Adobe PDF versions up to and including version 1.7. (Also supports indexing of PDF-A files). Foxit PDF IFilter functions in the following environments (search engines): Windows Indexing Service, MSN Desktop Search, Internet Information Server, SharePoint Portal Server, Windows SharePoint Services (WSS), Site Server, Exchange Server, SQL Server and all other products based on Microsoft Search technology.

Desktop PDF Search for Free

For customers in need of desktop PDF search, the Basic Desktop Only version of Foxit PDF IFilter is available at absolutely no charge for use on Windows Desktop Search (WDS) in Windows XP, Windows Vista, and Windows 7, but it cannot run on the server environment.

Top Choice of Technology Providers Around the Globe

The Foxit PDF IFilter has proven to be the technology industry's number one choice when it comes to PDF IFilter software. Our customers include leading technology companies around the world. Even Microsoft Corporation chooses Foxit PDF IFilter the top solution to index and search within PDF documents using Microsoft Exchange Hosted Services. [Click here](#) ("Success Stories" page) to learn more.

Upgrade your PDF Search Capabilities Today

Why wait? You can have fast, reliable and robust PDF document searching capabilities in place right away. Plus all Foxit PDF IFilter customers receive our world-class customer support Free for one year.

Download a trial version of Foxit PDF IFilter today and see for yourself.
